RE: Docket MARAD-2003-16248 -197

Dear Sir:

As a unlicensed office worker in the U.S.-flag merchant marine, and as a member of the Masters, Mates & Pilots Union, I am writing in support of the application filed by Maersk Line, Limited, regarding the transfer of 15 Maritime Security Program operating agreements from U.S. Ship Management. I believe it is extremely important that this matter be resolved quickly and that the operating agreements be transferred to Maersk as soon as possible in order to provide long-term stability and continuity for the Maritime Security Program.

All American merchant mariners – licensed and unlicensed – are proud of the role we play in protecting our country's security throughout the world. American commercial vessels and American crews are always ready and willing to sail into harm's way whenever called upon by our government. I believe that it is important to our national defense and our commercial shipping capability that these 15 MSP operating agreements be transferred to Maersk so that Maersk can more directly incorporate these vessels into its U.S.-flag fleet, giving the Department of Defense the certainty of knowing that these vessels and their existing crews will continue to be available to serve our country well into the future.

It is important that government policies and actions help preserve and create jobs for American mariners so that there is sufficient American manpower in times of war or other emergency. I believe that approving the Maersk application will help guarantee that these vessels will stay under the American flag, that they will continue to provide jobs for American mariners, and that our nation's defense will be strengthened.

Sincerely,

  
398 2nd Street

Dear Sir:

As a unlicensed office worker in the U.S.-flag merchant marine, and as a member of the Masters, Mates & Pilots Union, I am writing in support of the application filed by Maersk Line, Limited, regarding the transfer of 15 Maritime Security Program operating agreements from U.S. Ship Management. I believe it is extremely important that this matter be resolved quickly and that the operating agreements be transferred to Maersk as soon as possible in order to provide long-term stability and continuity for the Maritime Security Program.

All American merchant mariners -- licensed and unlicensed -- are proud of the role we play in protecting our country's security throughout the world. American commercial vessels and American crews are always ready and willing to sail into harm's way whenever called upon by our government. I believe that it is important to our national defense and our commercial shipping capability that these 15 MSP operating agreements be transferred to Maersk so that Maersk can more directly incorporate these vessels into its U.S.-flag fleet, giving the Department of Defense the certainty of knowing that these vessels and their existing crews will continue to be available to serve our country well into the future.

It is important that government policies and actions help preserve and create jobs for American mariners so that there is sufficient American manpower in times of war or other emergency. I believe that approving the Maersk application will help guarantee that these vessels will stay under the American flag, that they will continue to provide jobs for American mariners, and that our nation's defense will be strengthened.

Sincerely,

*Nancy Hackett*
